1. Mr. [] called on Friday morning about the attached project, and in discussing the covert requirements I asked if he thought they had exhausted all possibilities of using [] storage space. He said they had discussed ordnance storage in nearby [] but not with []. I asked if he could go further prior to coming up for a hearing on the [] building.

4. He had discussed the prefab building for storage of packing materials with Mr. [] who said that Services had enough in its budget to take care of this temporary structure. Consequently no PRC action is required, and since the prefab is removable no problems arise out of construction on leased property.
